

## Participants List - July 2019

The WCPO PS Tuna FIP is made up of a fleet of 40-45 tuna purse seine vessels, flagged either to Taiwan or to a range of Pacific Island states. The vessels fish in the WCPO for the three tropical tuna species (with most of the catch being made up of skipjack). They deploy FADs, and fish on FADs and other floating objects, as well as setting on free schools.

The FIP aims to bring transparency and ensure sustainability of the resource. The following list are the stakeholder committee and participants of the FIP.

Organisation Name	Nature of Participation
Thai Union	An accountability of the Project is held by Thai Union who initiate the beginning of the Project  Funding/in-kind support and activities to be conducted.
The Nature Conservancy	Funding/in-kind support and activities to be conducted.
