

Notice of the Completion of the FIP

March 2023

As per the definition of a completed FIP, the FIP has completed its environmental objective of all elements graduating into an MSC assessment.

We can confirm that each element of the fishery is now MSC certified or has entered MSC assessment, with at least an ACDR being published on the MSC Track a Fishery website. The elements are listed below:

Participant	MSC Fishery	Assessment Information	Date
FCF	Nauru skipjack, yellowfin, and bigeye tuna purse seine fishery.	MSC Certified	June 2022
	WPSTA Western and Central Pacific Skipjack and Yellowfin Purse Seine Fishery	In Assessment – PCDR Stage with components at the ACDR and certified stage	November 2022
Silla	Silla, NFCD WCPO purse seine tuna fishery	In assessment - ACDR Stage	February 2023
Da Yang	Micronesia Skipjack, Yellowfin and Bigeye Tuna Purse Seine Fishery.	In assessment - ACDR Stage	September 2022

For any further information, please email the historic FIP lead, Tom Evans – t.evans@keytraceability.com.
